

Woodlands North is a professional environmental consulting firm offering data driven management solutions to Alberta's resource sectors. We specialize in field data collection and geospatial analysis, to support ecological restoration of fragmented or isolated habitats. Woodlands operates in Western Canada with offices in Edmonton and Whitecourt, Alberta.

We are currently seeking an experienced environmental or forestry field professional to join our team in a supervisory capacity. This is a full-time permanent position based in Whitecourt, AB.

Position: Field Supervisor

Candidate will be knowledgeable in current resource management techniques and applications of the forest and energy sectors. This person will have at least 5 years of field experience at a supervisory level or higher and be well versed with current best management practices. Project responsibilities will be the supervision and management of field personnel conducting inventory, site assessment, and implementation of restoration project works including stream habitat restoration, silvicultural reforestation, linear feature restoration programs.

This position requires demonstrated supervisory skills and logistics management. The successful applicant will have strong communication skills, will enjoy a diversity of work types, and enjoy working with and mentoring junior professionals. Applicants will have graduated from a post-secondary institution and be eligible for professional registration in forestry, agriculture, or biology.

Salary is competitive based on level of experience and education. *Woodlands* offers comprehensive benefits, a flexible work environment and opportunities for continuing education.

Closing Date: July 1, 2022

Suitable applicants will be contacted prior to the closing date. Please submit a cover letter and resume in MS Word or .pdf format.

Send your application to: admin@woodlandsnorth.co
