

Woodlands North is a professional environmental consulting firm offering data driven management solutions to Alberta's resource sectors. We specialize in field data collection and geospatial analysis, to support ecological restoration of fragmented or isolated habitats. Woodlands operates in Western Canada with offices in Edmonton and Whitecourt, Alberta.

We are currently seeking an experienced resource technician or professional to join our team as a Regulatory and Permitting Specialist for water-based projects. This is a full-time permanent position based in our Edmonton or Whitecourt Office. This position is focused on the management of a comprehensive regulatory and permitting portfolio for ecological restoration activities in both aquatic and terrestrial habitats. Project work is completed for the energy and forest sectors.

### **Position: Regulatory and Permitting Specialist, Aquatics**

Candidate will be knowledgeable with current regulatory and permitting requirements for all Provincial and Federal permitting agencies including AEP, AER, ACO, AAF, and DFO. This person will have a post-secondary education in a Natural Resource Management discipline and at least 2 years of field experience. Project responsibilities will include the compilation, submission, and tracking of permitting that support the restoration projects we undertake on streams, rivers, wetlands, and linear restoration projects we complete for our clients.

This position requires demonstrated written and verbal communication skills. The candidate will enjoy working with a team of ecologists, biologists, and GIS professionals. Applicants will be eligible for professional registration in one of Alberta's resource based professional organizations.

Salary is competitive based on level of experience and education. Woodlands offers comprehensive benefits and a flexible work environment.

**Closing Date: July 1, 2022**

Suitable applicants will be contacted prior to the closing date. Please submit a cover letter and resume in MS Word or .pdf format.
