

Woodlands North is a professional environmental consulting firm offering data driven management solutions to Alberta's resource sectors. We specialize in field data collection and geospatial analysis to support ecological restoration of fragmented or isolated habitats. Our primary focus is restoration of lotic stream habitat and ecosystem connectivity resulting from fragmentation due to roadway watercourse crossings. Woodlands also has extensive experience with planning and operational linear restoration of legacy seismic footprint (caribou habitat). Woodlands operates in Western Canada with offices in Edmonton and Whitecourt, Alberta.

We are currently seeking a Restoration Ecologist to join our team based out of our Whitecourt office. This is a full-time permanent position that is focused on inventory, assessments and habitat restoration. The inventory and assessment of remote data sets including forest inventory, ecological site assessments, wildlife inventories, and roadway/stream crossing assessments. This data is used to aid in the development of spatial solutions for our clients. Project work is remote, team based, safety driven and is completed for both the energy and forest sectors throughout the province.

Position: Restoration Ecologist

Candidate will be knowledgeable in current restoration best management practices for watercourse and watershed restoration as well as terrestrial habitat restoration of linear features such as legacy roads and seismic.

This position requires strong written and verbal communication skills. Applicants will be eligible for professional registration in one of Alberta's resource based professional organizations. Applicants must provide a valid class 5 driver's license with a clean abstract. Shift work applies to most project work.

Salary is competitive based on level of experience and education. Woodlands offers comprehensive benefits and a flexible work environment.

Closing Date: July 1, 2022

Suitable applicants will be contacted prior to the closing date. Please submit a cover letter and resume in MS Word or .pdf format.
